

GYANANDA SCHOOL FOR GIRLS
KNOWLEDGE IS EMPOWERMENT

School code- 81955
Affiliation no-3530541

Dear Parents,

We are at the threshold of a new academic session, saying goodbye to the old and welcoming the new. It's been a great year with many new endeavors undertaken, experiences gained and learning from where we have faltered, feeling a little more evolved. As we step into the New Year, we are more than convinced that progress that a child makes is not single handedly the responsibility of the parents or the school. It is the result of a congenial partnership between the academic Institutions and parents who closely work together making sure that an environment and a value system is created, which results in an overall development of all faculties of mind, body and spirit and shapes a child into a happy confident and a responsible human being ready to face any and every challenge that comes her way.

At school, it is our priority to create an environment which is conducive to a child's happiness, peace, calm and learning. We encourage values like respect, care, empathy, sharing, punctuality, honesty, sensitivity and strength of character and we urge and expect the parents to join hands with us in working together to shape the personalities of our children, so that they not only are ready to work towards their own goals but also towards the betterment of the society and the world.

At school we clearly understand that children learn not so much from being instructed to act a certain way but by observing people and situations around them.

Let us be role models for our children and lead by example.

**“Children have never been very good at listening to their elders,
BUT THEY HAVE NEVER FAILED TO IMITATE THEM.”**

It is essential for children to be exposed to different forms of art: performing visual. The school organized various competitions in the area of art/craft, dance, music, theater, debates and elocution. We at Gyananda are proud of the fact that every single child gets an opportunity to learn and make use of the platform that is provided by the school to showcase their talent. The school believes that participation is every child's right irrespective of the competency in any area because giving every child a chance to participate takes precedence over winning or losing.

Our responsibility as an institution is not restricted only to the academic learning but to focus on the confidencebuilding, overall grooming and emotional well being of the child.

Our school annual calendar ensures opportunities to the students through the year to achieve this.

SCHOOL RESPONSIBILITIES

We, students and teachers, at Gyananda School for Girls are committed to sensitize students, teachers and the community members. Environmental issues today are more relevant and are a serious concern than ever before. Hence environmental education as well as different ways to conserve the environment and to address the issues related to it, is an important and essential part of our school program.

Our school has a dedicated program in collaboration with the Waste Warrior, an NGO working towards spreading awareness and saving the environment of Dehradun city. We at Gyananda school, along with the Waste Warrior follows a comprehensive program through the year which include activities like planting trees, spreading awareness through various workshops and cleanliness drives etc to create awareness in supporting and spreading the concept of 3 R's in different parts of the city. As a part of the Environment Conservation Program in school, we have pledged to consciously Reduce Reuse and Recycle various materials including paper. This has especially been effective since the teaching learning and communication shifted to online.

After the discussion of the policy, display of the digital messages created by the students using the 'popplet app' was done. With that the students took a pledge to save the environment by following the 3 R's policy.

Earth Day is about raising awareness about the importance of protecting our planet and taking action. Caring for nature, plants, and the land is integral to our own health and that individual responsibility lies with each of us! Even a small action of ours can have a major impact on environment. With the same vision, we have decided to join hands and take some initiatives to bring some positive changes to save our environment. We have formulated our school policy which we will follow round the year and do our bit to save our environment .

The three 'R' Policy: Recycle, Reduce and Reuse.

Recycle

- Paper Recycling.
- Metal Recycling.
- Electronics recycling : From printer ink cartridges, to computers, to monitors, school we can recycle old electronics that would otherwise be tossed in landfills and pollute the environment.

- Plastic recycling : From cups to plastic forks and spoons to food packaging, we produce a lot of plastic waste that can be recycled.
- Composting : Composting is like nature's recycling plan. It's a way of turning organic waste such as food scrap and lawn clippings into nutrient-rich soil. It prevents waste and, like recycling reduces trash going to the landfill. Composting can be done on-site in a school garden or in worm bins. It can also be done in small pots at home.

Reduce:

- Saving electricity : Reducing electricity and other forms of energy use is another way we can save money and help the environment, and there are many simple ways to do it. Look around your school/house and see what it could do to save more electricity.

Here are some things to look for:

- Use of energy: efficient light bulbs, such as compact fluorescents. Installation of solar panels: Installation of motion sensors or timers to turn lights off automatically.

A "turn it off campaign" encouraging students and faculty to turn off lights, computers, and other appliances at the end of the day or when not in use for an extended period. An ample supply of bicycle racks to encourage students to walk or ride a bicycle to parks etc. rather than relying on motorized transportation.

- Examine water use. Water waste is another environmental problem we can help address. Look around your school / house to see if it has done any of the following:
 - Stopped any leaks promptly.
 - Installed automatic faucets for efficient hand-washing.
 - Setting up a rainwater collection system such as rain barrels or rain gardens to control runoff.

Reuse:

Donate your old clothes, books and unwanted items. This is a great way to reuse items and help them find new homes, rather than ending up in the landfill. Purchase reusable, rather than disposable, products such as mugs, dishes, cloth napkins, and metal flatware instead of paper cups, plates, and napkins, and plastic utensils. Use refillable containers, like water bottles and soap containers, whenever possible. Or carry your own water bottles whenever possible. Mend clothing and repair appliances and other products so that they can be reused, and donate used clothing, books and toys instead of throwing them out. Find creative ways to reuse items you might otherwise throw away. For example, find craft projects for used paper towel rolls, linens, boxes, packaging, and/or empty containers. Use both sides of paper when printing from your computer.

Things to be checked:

- Are plastic products labeled as PVC free?
- PVC, or polyvinyl chloride, is a highly toxic plastic.
- Are computers and other electronics energy efficient?
- Look for an Energy Star logo and rating.
- Look for the Green Seal or Eco-Logo symbol on the labels of cleaning products to see if they are green products.
- Is the waste being segregated as per their category?
- Are we going as much paperless as we can?
- Are we planting at least 1 sapling a month?

Earth Day Celebration

An event to commemorate **World Earth Day** and raise awareness of the need to protect the environment was held on April 21, 2022. The theme for Earth Day 2022 was "**Invest in Our Planet**," according to the organization that sponsors the event. The previous year's theme emphasizes taking risks, broadening one's scope of innovation, and using equitable practices. As a result, Grade V students led a special assembly where Kiyanshi Bansal and Aarna Kandwal talked about the need of protecting the environment. The 3 Rs rule- reuse, recycle and reduce and how we as responsible citizens may work to mitigate the effects of global warming were the main topics covered by Aarna Kandwal. This was followed by a Hindi poetry recited by Dhriti Singhania, and a mesmerising dance performance by the little children of grade II.

BE THE CHANGE PROGRAM

“Be The Change Program”, is an initiative to sensitize our children towards the society and the world at large. It is extremely essential for all of us today to understand empathy, compassion and develop sensitivity towards the under privileged in our society and to constantly strive to support and contribute meaningfully in whatever ways possible which in turn becomes learning for us and helps us grow into responsible citizens, which is the need of the hour today.

Be the change program, is a program of defined visits with the organizations in our town that are working towards the empowerment of the society at large. Through this program the children get an opportunity to meaningfully interact and contribute towards social cause.

OUR PEDAGOGY

Students are involved in all the class discussions and teacher facilitates the learning by putting up open ended questions which lead to positive and brain-storming sessions. Children work in groups and give their presentation to their class. This helps them to collaborate with each other and they learn to work in teams. Senior students are given the responsibility to lead different committees as editorial board, literature club, Environment club, Home - saaz club, Quiz club, etc. and groom the little ones for the same. Students are divided into four groups, under different clubs-(Sarojini Naidu, Mother Teresa, Mary Kom and Kalpana Chawla) and thus they get the chance to showcase their talents through various inter-house competitions throughout the year. Children are given tasks like listing out costumes needed in a skit for different characters / searching poems for elocution / conducting screen tests for dramas so that they are involved and take care of the responsibility for its smooth implementation. 100% participation is mandatory for students in Annual science exhibition, Founders day, Sports Day, Jhankar and Saaz aur sargam. They participate and are involved in each step of it and are responsible for its success or failure. While participating in dramas, plays, musical concerts, dance competitions, debates, quiz and elocutions children get the chance to handle all the aspects of the competition and are exposed to stage presentations. They work in groups and collaborate with each other and get the confidence of presenting their views in front of the audience/ listener. Children go for various field-trips to get a first hand experience of the various concepts they are required to be familiar with to either introduce them to new content or to consolidate their understanding of any given topic. Besides these academic field trips, students also go for cultural events such as, International literature festival (to know about the writing style of famous writers and poets all over the world), International film festival (to know about the language, culture and lifestyle of different regions of the world), National Handloom Expo (to know about various types of textiles and fabrics), spring festival (to gain the knowledge on latest tools and techniques used in agriculture).

I conclude this report wishing more success to the entire Gyananda team and a promise to stay true to our commitment to the students to provide them with yet another year full of happiness, excitement and joyful learning.

Best Wishes

MEENAKSHI MEHTA
HEAD OF SCHOOL

SCHOOL EVENTS 2022-23

Special Assembly on Easter and *Baisakhi* Jamboree

The school celebrated ***Baisakhi*** and Easter with fervour and gaiety on the April 13, 2022. A special assembly was conducted by the students of grade VI. The students reiterated the importance of festivals and emphasised that India is a land of festivals and celebrations. These festivals remind us of our history, culture, and traditions.

The special assembly commenced with news, thoughts, and an informative talk about Easter, wherein the students apprised the audience that Easter is the time of the year when we remember the Resurrection of Jesus Christ.

The harvest festival of Punjab ***Baisakhi***, was celebrated with a ***ShabadKirtan*** (group of hymns that are commonly used for reciting ***Kirtan***) recital by the students of Grades VI, VII and VIII, followed by a ***ShabadKirtan*** recitation by the teachers. The Grade V students won everyone's hearts with their exuberant bhangra performance.

Ms. Meenakshi Mehta, the Head of School addressed the students and sensitised them towards the importance of the rich cultural heritage of India and the concept of 'Unity in Diversity'. She wished all the Grade X students luck for their upcoming board exams. The celebration culminated with the National Anthem.

World Book Day

"There is more treasure in books than in all the pirate's loot on Treasure Island." Walt Disney

The school observed World Book Day on April 22, 2022, marking its 25th anniversary. Authors Mr. Lokesh Ohri (an author, activist, and anthropologist), Mr. Atul Sethi (Head of the Times of India Editorial Bureau in Uttarakhand), and Ms. Deepanjali Singh (an educationist, an avid painter, and an executive body member of the Wildlife Preservation Society) were honoured to be present.

A storytelling session for students in grades I to IV served as the event's opening act. The live session that followed was attended by eminent authors from Uttarakhand. The Author Talk included a discussion of the value of preserving our culture and legacy via literature. Following that, the students were astounded to learn about the authors' sources of inspiration, writing processes and early literary experiences. The program concluded with a brief questionnaire from our inquisitive young brains and some closing remarks from our school's head. For people of all ages, it was a thought-provoking and inspirational experience. The idea of a prospective writing club sparked excitement among aspiring writers!

Remembering the Legend Rabindranath Tagore

The Gyananda family honoured the legacy of Rabindranath Tagore, a great poet, author, dramatist, composer, philosopher, and social reformer, on May 11, 2022. A unique assembly was held based on the teaching principles followed at *Shantiniketan*, a university founded by Rabindranath Tagore. Students of grade VIII participated in the assembly alongside the children from Ashworth Public School, Dehradun. It featured performances of songs, dances, and poems. The legacy of our cherished Gurudev was rekindled by this successful event.

The Annual Science and Robotics Exhibition 2022-23

John Dewey rightly said, "Give the students something to do, not something to learn; and the doing is of such a nature as to demand thinking; learning naturally results."

The Second Annual Science and Robotics Exhibition was held on May 21, 2022 where parents and guests witnessed amazing exhibits, models and experiments presented by students with confidence and a thorough preparation through research and amazing craftsmanship.

In essence, science is about getting us closer to truth and scientific endeavour helps us find answers to the deepest problems. It pushes our boundaries, tests our assertions, and leads to new discoveries that revolutionise life. We do not know what the future will hold, but we can be sure that scientific progress will be a driving force behind it.

The exhibition was held with an objective to encourage, popularize and inculcate scientific temper among children.

The various projects that were a part of the exhibition were a roleplay about the process of germination, a presentation of the different states of matter, a working model of a hydropower dam, the segregation of waste using robotic arm, a model of the human heart, live experiments on electromagnetic trains and soap making. Some of the other highlights of the exhibition were the world of drones, face detection, food pyramid and hydraulic power plant. The cherry on the cake was the "Dino Park" at Gyananda which was an amalgamation of science and art. If you thought the Dubai Dino Park was mesmerising, you need to take a closer look at the 3D model made by the students and teachers of Gyananda! It certainly left everyone awestruck!

Kargil Vijay Diwas and Tigers's Day

The school's weekly assembly on July 27, 2022 was a festive occasion to commemorate ***Kargil Vijay Diwas*** and Tigers' Day. The second-grade pupils led the assembly as a whole. The day's activities began with a powerpoint presentation sharing some very crucial information on the various operations carried out during the 1999 Kargil War. The presentation was given by grade X students Bani Rawat, Mokshika Upadhyay, and Shreya Khali. Following this, second-grade students sang the lovely song "*Saare Jahan se Achha*" to honour the efforts and sacrifices made by Indian soldiers during the Kargil War.

Since 29th July, 2022 has been designated as Global Tiger's Day, students discussed the significance of this particular day and provided details about the "Save Tigers" project in India. An informative performance titled "How Did the Tiger Get Its Stripes?" was performed by a select group of Grade II students. Faculty from Helen O'Grady directed the play.

The results of Grade 10 (years 2021-22) were announced, and the head of school congratulated all of the pupils, among other notable events from the day. Four girls earned their certificates of accomplishment for the Bronze level Journey through Gyananda's IAYP (International Award for Young People) award programme.

Haryali Teej Ceremony

A yearly ceremony called **Teej** marks the arrival of the **saawan** or monsoon season. Alternatively, it is known as the Swing Festival. Lord Shiva and Goddess **Parvati's** reunion is symbolised during the **Teej** festival. **Mehendi** adorned palms, flowers, bangles, and mouth-watering delicacies are all associated with the **Teej** festival. Young girls and married ladies gather in the evening to sing and dance while dressed traditionally.

This year, Gyananda organised a creative celebration of Teej on July 27, 2022 and the primary school pupils enthusiastically participated. Students in grades III, IV, and V competed in an inter-house mehendi competition. Everyone was quite eager to play on the swings and apply heena on their hands. The third graders in the two groups used coloured pens to apply mehendi on paper.

The winners from grade III were:

1. Meera Singh, Kalpana Chawla House
2. Avyaana Goyal, Mary Kom House
3. Yagnya Anand, Mother Teresa House
4. Vedati Gandhi, Sarojini Naidu House.

The winners from grade IV and V were:

1. Karnika Gupta and Aarna Pundir , Mary Kom House
2. Tanishka Chaudhary and Dhriti Singhania, Kalpana Chawla House.
3. Rhythm Ishtwal and Kiyanshi Bansal, Mother Teresa House
4. Vaishnavi Rautela and Khyati Dhyani, Sarojini Naidu House

Guru Nanak *Jayanti*

Guru Nanak ***Jayanti*** marks the birth anniversary of the first Sikh Guru and was celebrated with great zeal at the school. A special assembly was conducted to mark the occasion. The assembly started with the prayers and speech which briefed about the childhood of Guru Nanak Devji and narrated a few '**sakhis**' (stories) related to his life to the children. Serenity and calmness floated in the air with the beautiful humming of the **shabads** (sacred songs) and it paved the way for a very peaceful day for all. The students depicted glimpses of the sacred life lived by Guru Nanak Devji and presented about the principles and teachings of the pious soul. The well-presented enactment of spiritual journey was played by the students which reiterated the message 'One God' and the 'Eternal Truth.' It certainly enlightened the students about the solemnity of the festival. Students and staff of Ashworth School were invited. They also presented the performances to mark the occasion.

The festival was celebrated by all the students with great pride, honour and respect. Guru Prasad was also distributed to all the students and staff members. The assembly was then concluded with the **Aardas** (prayer) followed by **langaar** (free community meal).

Founder's Day Celebrations

Gyananda School for Girls celebrated their 6th Founders' day with a lot of verve and enthusiasm on October 21, 2022. The grand celebration included an array of programmes including a felicitation ceremony of the students and staff. Each and every student of the school participated in the programme. The students of grades I,II and III showcased their singing skill in a Ganesh ***Vandana***, their dance skills in a ***Sarasvati Vandana*** and in a Chhattisgarhi folk song and their acting skill in a small theatrical presentation of ***Ram Setu***. The students of grade IV and above staged a monumental play on ***Jhansi ki Rani***-Rani Lakshmi Bai depicting her valour and supreme sacrifice for her homeland. The school witnessed an overwhelming size of an audience that basked in the glory of their children's stage presence and acting skills.

Teacher's Day Celebrations

Teacher's Day is one of the most memorable days in the life of a teacher. Every year this day is celebrated with great fervour and is organized by the students. However, last year it was a holiday for students and teachers enjoyed coming to school in the afternoon. They enjoyed their special day by playing different fun games like musical chair, paper dance and many other field games. This was followed by a lip-smacking **chaat** treat. All the teachers participated eagerly and filled the atmosphere with great joy and laughter.

It's Children's Day

While Gyananda School for Girls believes that all learning should be purposeful, it also believes that there are no limits to fun. We celebrated November 14, 2022 marked as Children's Day with youthful exuberance and thereby paid tribute to our beloved "Chacha Nehru ji." The program began with our teachers performing lively dances and melodious musical shows. In a short span of time, the teachers put on an interesting and entertaining show for their beloved students. The children were enthralled to see their teachers transitioning from formula to fun. The icing on the cake was a self-composed **kawali** based on the daily life of a student. This was followed by an exciting fete at the school's tennis court. With a little nip in the air, children relished cups of hot chocolate and marshmallows. The program concluded with the cake-cutting ceremony and a dance session where all the students and teachers let their hair down. It was a memorable day for both the children and adults.

FASHION FIESTA

"Life is a fashion show, the World is your runway" -Marc Jacobs

The tiny tots of Senior Kindergarten showcased their modelling talent in a "fashion fiesta" organised on December 2, 2022. As a part of the project "My Clothes," children were asked to dress up in a fashionable attire. The little stylish divas flaunted an exclusive collection of western, Indo-western, fancy, and traditional wear. The girls walked down the ramp, exhibiting confidence and style. The main aim of organising this activity was to make the children aware of different types of clothes that can be worn on different occasions, different fabrics used for clothing, and different patterns and materials used on clothes, which was successfully achieved.

Christmas Festivity

The school had a grand Christmas Celebration on December 21, 2022. The true essence of Christmas as an incredible act of love, giving, sacrifice, and gaiety was emphasised. The students joyfully sang carols, enacted a play with a beautiful message of compassion, and danced to popular Christmas songs. The budding drummers enthralled the audience also. The teachers too showcased their creativity by playing on an amalgamation of different musical instruments.

BEST PRACTICES OF SCHOOL

The school has a modern infrastructure that focuses on the holistic development of children. The classrooms are spacious, well ventilated and full of natural light. The school infrastructure is aligned to providing an all round development to the child, laying equal emphasis on academics, performing arts, visual arts and sports. The school inculcates a strong value system developing essential qualities like compassion, empathy and respect towards peers, elders and the environment.
